Acknowledge

As we understand that the eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

Practice step by step i.e., ladder approach.

Build a larger more robust application.

Usage of certain utilities in applications designed by user.

Single program to unified code leading to a complete application.

Learn implementation of concepts in a phased manner.

Enhance skills and add value.

Work on real life projects.

Give a real-life scenario and help to create applications more complicated and useful.

Mentoring through email support.

We would like to send a great thank to our professor and others student for the addorable supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knownledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,

Team Group 03.

Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application.

The objective is not to teach you the software's but to provide you with a real-life scenario and help you create basic applications using the tools.

You can revise the topics before you start with the project.

This project is meant for students who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

The website (in this project) is a tool that help the company to access the international market and gain more and more new customers.

It is very essential that a student has a clear understanding of the subject.

Kindly get back @ eprojects@aptech.ac.in in case of any doubts regarding the application or its objectives.

Design Plan: Watches Prestige Limited	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 03-03-2022	Version 1.0	Page No: 1 of 23

Problem Definition

During the second half of the 18th century, other developments allowed watches to be thinner, more precise, and more complex in their internal design. In 1912, the first wristwatch with a date was born.

In 1915, the first waterproof wristwatch was born. These were all important improvements to meet the needs of the army during World War I.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

Here are some problems need to be resolved:

1) The products even after being very popular in the market and the sales increasing there are some probable customers who want to view the product, learn about the features and product specifications in terms of storage technique, overall looks etc.

2) Some probable customers would also like to compare the various products within the same category.

3) The product range is not known to quite a few customers they just order on the basis of the feedback or recommendations given by their friends or colleagues and after delivery of the product it does not match either the requirements or expectations leading to wastage of time, resources and delivery costs.

	Prepared by (Student)	Approved by (Faculty)

Design Plan: Watches Prestige Limited	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date:03-03-2022	Version 1.0	Page No: 2 of 23

4) Existing customers needing some help and support on the product after installation would have to call the Liberty Electronics office (difficult with phone lines continuously Busy) who would take their call and send the Service centre people to the place where the product is installed.

A close-up, artistic shot of a watch with a blue dial and a gold case. The watch is positioned diagonally across the frame, with the background blurred.

III. About Us

ABOUT US

Add Some Description

Guccio Gucci, son of an Italian trader founded the House of Gucci in Florence in 1906. Guccio, an extraordinary craftsman, started selling luxury goods in the 1920s. In 1938, Guccio opened a boutique in Rome. After Guccio's death in 1953, his son, Aldo expanded the company by opening more stores. In 1953, New York got its first Guccio store and by the late '60s, more such stores were launched in London, Paris and Tokyo. Guccio continued to be one of the leading luxury brands until the late '70s. After that a string of devastating business decisions led the company to the brink

Rolex is a symbol of luxury, power and prestige. Founded by Hans Wilsdorf in 1905, it became the world's most famous clock brand. The big của rolex đến từ was born in the vỏ's shell in the mid - 1920s. Because of the revolutionary nature, it became the first anti - water clock in the world. Nearly a century later, the design of the rolex oyster was almost unchanged. Improvements to small details are often not khác when chỉ looks through. The điều watches become classic, making it easy to realize and become được collectors. Rolex has led the luxury clock world for over 100 years. The clock from this independent swiss manufacturer means efficiency, prestige and accuracy.

Rolex Oyster Perpetual Day-Date 36mm

55

Add to Card

Product

Rolex perpetual day' s day - date 36mm. Initially, the clock was created to easily spin bezel and the shell to ensure the maximum water resistance. After that, design is like a trench in the back, which is firmly embedded in the shell that enhances the greatest waterproofing of the water. Since then, track design has become a very distinguished detail in the rolex brand style. So, this clock also inherited the high aesthetic value, and how much of it had to be admired.
